

July 24, 2014

Greetings:

I would like to thank you for registering for the Tutorial on Diagnostic Cytopathology. With the guidance and support of Dr. Daniel M. Knowles, Chairman of the Department of Pathology and Laboratory Medicine at Weill Cornell Medical College, I present to you the 5th Annual Papanicolaou Tutorial on Updated Diagnostic Cytopathology. I do hope that it meets your expectations.

Your evaluations and comments will undoubtedly prove invaluable to the development of curriculum and selection of faculty for future Tutorials, so I urge you to please complete all of the evaluation forms and, particularly, to provide me with specific comments as you deem appropriate.

We chose to supply you with online slide presentations for each speaker. I hope you will find this resource helpful, both as a guide to be used throughout the course and as study material. Again, I invite you to offer any specific comments or suggestions regarding these materials, should you feel they would allow us to enhance the educational experiences of future Tutorial registrants.

Tutorial registrants are entitled to a maximum of 14.75 Continuing Medical Education (CME) credits. In addition, we offer 10 Self Assessment Module (SAM) credits, as required by the Maintenance of Certification (MOC) program of the American Board of Pathology. To obtain SAM credits, you must acquire the question and answer packet at the onset of the Tutorial and turn in your completed answer sheets upon its conclusion.

Please let me welcome you to the 5th Annual Papanicolaou Tutorial on Updated Diagnostic Cytopathology. I look forward to seeing you again at future programs.

Warmest Regards,
